## 50 Years **2 Choices of Premium Payment Term<sup>1</sup> with 50 Years of Life Protection**

The Plan provides 2 choices of Premium Payment Terms<sup>1</sup>, i.e. 2 years<sup>1</sup> and 5 years<sup>1</sup> with 50 years of life protection for the Life Insured.

### **Monthly Income till Policy Maturity**

Starting from the 13<sup>th</sup> Policy Monthiversary (applicable to 2-year Premium Payment Term Policies) or the 49<sup>th</sup> Policy Monthiversary (applicable to 5-year Premium Payment Term Policies), Monthly Income (non-guaranteed)<sup>2</sup> will be payable on any Policy Monthiversary until Policy Maturity. You can choose cash withdrawal or leave it with the Policy for interest accumulation<sup>2</sup> to meet your personal needs.

### **Additional Return**

Besides providing Guaranteed Cash Value, the Plan also distributes Special Dividend (non-guaranteed)<sup>2</sup> at the end of the 10<sup>th</sup>, 20<sup>th</sup>, 30<sup>th</sup>, 40<sup>th</sup> and 50<sup>th</sup> Policy Years in the form of cash. You can choose cash withdrawal or leave it with the Policy for interest accumulation<sup>2</sup> to meet your individual needs.

In addition, Terminal Dividend (non-guaranteed)<sup>2</sup> may be payable at or after the end of the 4<sup>th</sup> Policy Year (applicable to 2-year Premium Payment Term Policies) or the 6<sup>th</sup> Policy Year (applicable to 5-year Premium Payment Term Policies) when the Policy is fully surrendered by the Policyowner, upon the death of the Life Insured (provided that there is no named and surviving Contingent Life Insured who will become the new Life Insured) or upon Policy Maturity, whichever is earlier.

When the Policy is partially surrendered<sup>3</sup> by the Policyowner, Terminal Dividend (non-guaranteed)<sup>2</sup> may be payable on or after the end of 4<sup>th</sup> Policy Year (applicable to 2-year Premium Payment Term Policies) or the 6<sup>th</sup> Policy Year (applicable to 5-year Premium Payment Term Policies). The payable amount is equal to the Terminal Dividend (non-guaranteed)<sup>2</sup> attributable to the reduced portion of Principal Amount<sup>4</sup>. Terminal Dividend (non-guaranteed)<sup>2</sup> will not accumulate in the Policy.

### **Flexible Change of Life Insured<sup>5</sup>**

While the Plan is in force and the Life Insured is alive, the Policyowner may change the Life Insured for unlimited times starting from the 1<sup>st</sup> Policy Anniversary as follows<sup>5</sup>. This provides you with flexibility in your financial arrangement.

- **Change of 1 Life Insured<sup>5</sup>**  
The Guaranteed Cash Value will remain unchanged and continue to accumulate in the Policy till the Plan matures.
- **Change to 2 Life Insureds<sup>5</sup>**  
The Principal Amount<sup>4</sup> of the Policy will be converted into two new policies of the same Basic Plan in accordance to the portion as specified by the Policyowner. The Guaranteed Cash Value, Monthly Income (non-guaranteed)<sup>2</sup> (if any), Special Dividend (non-guaranteed)<sup>2</sup> (if any) and Terminal Dividend (non-guaranteed)<sup>2</sup> (if any) will be proportionally converted into the two new policies in accordance to the same portion as specified and continue to accumulate in the Policy till the Plan matures.

### **Contingent Life Insured<sup>6</sup> and Contingent Policyowner<sup>7</sup> Arrangement for Policy Continuum**

During the lifetime of the Life Insured and while the Plan is in force, the Policyowner may designate a Contingent Life Insured<sup>6</sup>. In the event of the death of the Life Insured on or after the 1<sup>st</sup> Policy Anniversary, the Contingent Life Insured will become the new Life Insured. This sustains the Policy and avoids the possibility of Policy termination due to the unexpected death of the Life Insured.

Moreover, to safeguard wealth management planning, during the lifetime of the Life Insured and while the Plan is in force, Policyowner may designate a Contingent Policyowner<sup>7</sup> so that the ownership of the Policy will be transferred to the Contingent Policyowner in the event of death of the Policyowner.

### **Life Protection for Peace of Mind**

When the Life Insured dies and provided that there is no named and surviving Contingent Life Insured who will become the new Life Insured, the Total Death Benefit will be paid to the Beneficiary as below:

Total Death Benefit	
100% of Total Premiums Paid <sup>8</sup> OR 100% of Guaranteed Cash Value as at the date of death of the Life Insured (whichever is greater)	plus Accumulated Dividends and Interest (non-guaranteed) <sup>2,9</sup> (if any) and Terminal Dividend (non-guaranteed) <sup>2</sup> (if any), less Indebtedness (if any).

In case of Partial Surrender<sup>3</sup>, the Principal Amount<sup>4</sup> shall be reduced proportionally based on the percentage of Guaranteed Cash Value and Terminal Dividend (non-guaranteed)<sup>2</sup> (if any) being withdrawn for the Partial Surrender<sup>3</sup>. Upon the reduction of Principal Amount<sup>4</sup>, the Guaranteed Cash Value, Monthly Income (non-guaranteed)<sup>2</sup> (if any), Special Dividend (non-guaranteed)<sup>2</sup> (if any), Terminal Dividend (non-guaranteed)<sup>2</sup> (if any), premium (if any) and Total Premiums Paid of the Plan shall be reduced proportionately. Total Death Benefit shall also be adjusted accordingly.

### **Flexible Death Benefit Settlement Options<sup>10</sup>**

The Plan provides flexible Death Benefit Settlement Options<sup>10</sup>. Instead of receiving the Death Benefit in a lump sum payment, the Policyowner can designate one of the following settlement options while the Plan is in force and the Life Insured is alive to settle the Death Benefit to the Beneficiary. If there is more than one Beneficiary named in the Policy, different settlement options can be specified for different Beneficiaries. For more flexibility of estate planning, the date to start the first installment payment can also be chosen.

#### **1. Installment Payments (Fixed Amount)**

Death Benefit will be paid in fixed amount at regular intervals (monthly, quarterly, semi-annually or annually), and the date of first installment payment can be specified.

#### **2. Installment Payments (Fixed Period)**

Death Benefit will be paid in installments (monthly, quarterly, semi-annually or annually) for an agreed fixed payment period, and the date of first installment payment can be specified.

### 3. Partial Installment Payments (Fixed Amount)

A designated percentage of Death Benefit will be paid in a lump sum. The unpaid balance of Death Benefit will be paid in fixed amount at regular intervals (monthly, quarterly, semi-annually or annually), and the date of first installment payment can be specified.

### 4. Partial Installment Payments (Fixed Period)

A designated percentage of Death Benefit will be paid in a lump sum. The unpaid balance of Death Benefit will be paid in installments (monthly, quarterly, semi-annually or annually) for an agreed fixed payment period, and the date of first installment payment can be specified.

### 5. Partial Installment Payments until the Designated Age of the Beneficiary

Death Benefit will be paid in fixed amount at regular intervals (monthly, quarterly, semi-annually or annually) before the Designated Age of the Beneficiary, and the date of first installment payment can be specified. The unpaid balance of Death Benefit (if any) will be paid in a lump sum at the Designated Age of the Beneficiary.

### 6. Increasing Installment Payments

Death Benefit will be paid by increasing installments (monthly, quarterly, semi-annually or annually), and the date of first installment payment can be specified. Death Benefit will be paid in a specified amount for the first installment. The subsequent installments will be increased by 3% each year starting from the second year until Death Benefit is fully settled.

### Other Benefits

- **Advance Income Benefit<sup>11</sup>**

While the Advance Income Benefit is in force and before the Life Insured attains the Age of 100, If the Life Insured (a) sustains an Injury and results in Accidental Dismemberment (including Loss of one member or more members, Paralysis or Permanent Bedridden) within 365 days from the date of Injury or (b) is confined as a resident in-patient in a Hospital for 14 or more consecutive days due to Injury or Sickness, Hong Kong Life will pay to the Policyowner an Advance Income Benefit<sup>11</sup>. Advance Income Benefit<sup>11</sup> will be paid in one lump sum, the amount equals to the sum of any Monthly Income projected to be payable for each Policy Monthiversary within the Advance Benefit Period as at the claim approval date of Advance Income Benefit<sup>11</sup>. This provides immediate financial supporting to your family to cope with the medical and rehabilitation expenses. Upon the payment of the Advance Income Benefit<sup>11</sup>, the Monthly Income will then be suspended and will not be paid during the Advance Benefit Period and will become payable again after the end of the Advance Benefit Period unless the Plan matures. Advance Benefit Period means the period starting from the date of the 1<sup>st</sup> Policy Monthiversary immediately following the claim approval date of Advance Income Benefit<sup>11</sup> and ending on (i) the 36<sup>th</sup> Policy Monthiversary following such claim approval date or (ii) the Maturity Date, whichever is earlier, subject to the "Advance Income Benefit" clause of the Plan. Advance Income Benefit<sup>11</sup> can only be paid once under the Plan, and shall cease once paid.

- **Accidental Death Benefit<sup>12</sup>**

The Plan provides Accidental Death Benefit<sup>12</sup> for the first 5 Policy Years. ## **Important Statements**

### **A. Basic Plan**

#### ***Risk***

#### **1. Exchange Rate Risk**

You are subject to exchange rate risks for the Policy denominated in currencies other than the local currency. Exchange rates fluctuate from time to time. You may suffer a loss of your benefit values and the subsequent premium payments (if any) may be higher than your initial premium payment as a result of exchange rate fluctuations.

#### **2. Liquidity Risk / Long Term Commitment**

The Plan is designed to be held until the Maturity / Expiry Date. If you partially surrender or terminate the Policy prior to the Maturity / Expiry Date, a loss of the premium paid may be resulted.

The premium of the Plan should be paid in full for the whole payment term. If you discontinue the payment, the Policy may lapse and a loss of the premium paid may be resulted.

### **3. Credit Risk of Issuer**

The life insurance product is issued and underwritten by Hong Kong Life. The premium to be paid by you would become part of the assets of Hong Kong Life and that you and your Policy are subject to the credit risk of Hong Kong Life. In the worst case, you may lose all the premium paid and benefit amount.

### **4. Market Risk**

The amount of Monthly Income and dividends (if any) of the Plan depends principally on the factors including investment returns, claim payments, policy persistency rates, operation expenses and tax; while the annual interest accumulation rate principally depends on the factors including investment performance and market conditions. Hence the amount of Monthly Income and dividends (if any) and annual interest accumulation rate are not guaranteed and may be changed over time. The actual Monthly Income and dividends payable and annual interest accumulation rate may be higher or lower than the expected amount and value at the time when the Policy was issued.

Investment returns include investment income and changes in asset value of the underlying investment. Performance of the investment return is affected by interest earnings and other market risk factors including, but not limited to, interest rate or credit spread movements, credit events, price fluctuations in invested assets, and foreign exchange fluctuations.

### **5. Inflation Risk**

When reviewing the values shown in the Insurance Proposal, please note that the cost of living in the future is likely to be higher than it is today due to inflation.

### ***Important Policy Provisions***

#### **6. Suicide**

If the Initial Life Insured commits suicide, while sane or insane, within one (1) year from the Issue Date or the date of any reinstatement, whichever is later, the liability of Hong Kong Life shall be limited to a refund of paid premiums to the Beneficiary without interest less any existing Indebtedness. In the case of reinstatement, such refund of premium shall be calculated from the date of reinstatement.

Upon the change of the Life Insured(s), if the New Life Insured commit suicide, while sane or insane, within one (1) year from the date of endorsement (in the case of one (1) New Life Insured), Issue Date of the new policies (in the case of two (2) New Life Insureds) (where applicable) or date of any reinstatement, whichever is the latest, the liability of Hong Kong Life shall be limited to (i) (a) a refund of the Total Premiums Paid for the Plan (without interest) or (i)(b) the Guaranteed Cash Value and Terminal Dividend (if any), whichever is greater, plus (ii) Accumulated Dividends and Interest (if any), less (iii) Indebtedness (if any).

#### **7. Incontestability**

The validity of the Policy shall not be contestable except for (i) the non-payment of premiums, (ii) fraud or (iii) misstatement of age and/or sex as specified in the Misstatement of Age and/or Sex provisions, after it has been in force during the lifetime of the Initial Life Insured for two (2) years from the Issue Date or the date of any reinstatement, whichever is later. Premiums paid will not be refunded should the Policy be voided by Hong Kong Life.

Upon the change of the Life Insured(s), Hong Kong Life shall not contest the validity of the Policy after the change has been in force during the lifetime of the New Life Insured(s) for two (2) years from the date of endorsement (in the case of one (1) New Life Insured), Issue Date of the new policies (in the case of two (2) New Life Insureds) (where applicable) or date of any reinstatement, whichever is the latest, except for (i) the non-payment of premiums, (ii) fraud or (iii) misstatement of age and/or sex as specified in the Misstatement of Age and/or Sex provisions. Premiums paid will not be refunded should the Policy be voided by Hong Kong Life.

## 8. Automatic Termination

The Plan shall terminate automatically:

- i. upon the death of the Life Insured (provided that there is no named and surviving Contingent Life Insured who will become the new Life Insured pursuant to the "Designation of Contingent Life Insured" clause of the Plan); or
- ii. if and when the Plan matures or is fully surrendered; or
- iii. if and when a premium remains unpaid at the end of the Grace Period as specified in the General Provisions of the Policy; or
- iv. if and when the Indebtedness of the Policy equals to or exceeds the Guaranteed Cash Value; or
- v. if and when the Policy is converted into two (2) new policies for New Life Insureds upon the change of Life Insured as specified in the Change of Life Insured Option clause.

The Plan is an insurance plan with a savings element. Part of the premium pays for the insurance and related costs (if any).

### 10. Cooling-off Period

If you are not satisfied with your Policy, you have a right to cancel it within the cooling-off period and obtain a refund of any premium(s) and levy(ies) paid (in the original payment currency) to Hong Kong Life without any interest. A written notice signed by you should be received directly by Hong Kong Life Insurance Limited at 15/F Cosco Tower, 183 Queen's Road Central, Hong Kong within the cooling-off period (that is, the period of 21 calendar days immediately following either the day of delivery of the Policy or the Cooling-off Notice to you or your nominated representative (whichever is the earlier)). After the expiration of the cooling-off period, if you cancel the Policy before the end of the term, the projected Total Surrender Value (if applicable) may be less than the Total Premiums Paid.

### 11. Monthly Income and Dividends

Hong Kong Life determines the amount of divisible surplus that will be distributed in the form of Monthly Income and dividends. Monthly Income and dividends will be determined and distributed according to the Policy's terms and conditions and in compliance with the relevant legislative and regulatory requirements as well as relevant actuarial standards, whereas Terminal Dividend is available for certain types of policies and will be payable at the termination of the policies.

The amount of divisible surplus depends principally on the factors including but not limited to investment returns and outlook, actual experience on claims (such as death and/or other covered benefits) and surrenders as well as the projected cost of providing such benefits, policy persistency rates, operation expenses and tax. Hence the amount of Monthly Income and dividends are not guaranteed and may be changed over time. The actual Monthly Income and dividends payable may be higher or lower than the expected amount at the time when the policies were issued. The withdrawal of Monthly Income and dividends will decrease the Total Surrender Value and Total Death Benefit of the Policy.

Investment returns include investment income and changes in asset value of the underlying investment. Performance of the investment return is affected by interest earnings and other market risk factors including, but not limited to, interest rate or credit spread movements, credit events, price fluctuations in invested assets, and foreign exchange fluctuations.

### 12. Partial Surrender

In case of Partial Surrender, the Guaranteed Cash Value and Terminal Dividend of the Policy will be decreased accordingly. This will also decrease the Principal Amount, Total Surrender Value, Total Death Benefit, Monthly Income, Special Dividend, premium, Total Premiums Paid and other benefits (if applicable) of the Policy.

### 13. Policy Loan

After the Plan has acquired a Guaranteed Cash Value and while the Policy is in force, the Policyowner may, upon the sole security and satisfactory assignment of the Policy to Hong Kong Life, apply for a Policy Loan from the Plan. Any loan on the Policy shall bear interest at a rate declared by Hong Kong Life from time to time. Interest on the loan shall accrue and compound daily from the date of loan. The Policy Loan Interest Rate is not guaranteed and will be changed from time to time. The loan and the interest accrued thereon shall constitute Indebtedness against the Policy. Interest shall be due on each Policy Anniversary subsequent to the date of loan. In the event that the Indebtedness of the Policy equals to or exceeds the Guaranteed Cash Value, the Policy will terminate. Any Policy Loan and accrued loan interest may reduce the Total Surrender Value and Total Death Benefit of the Policy.

### 14. Non-Protected Deposit

The Plan is not equivalent to, nor should it be treated as a substitute for, time deposit. The Plan is not a protected deposit and is not protected by the Deposit Protection Scheme in Hong Kong.

### 15. Dispute on Selling Process and Product

Chong Hing Bank Limited ("Appointed Licensed Insurance Agency") is the Appointed Licensed Insurance Agency of Hong Kong Life, and the life insurance product is a product of Hong Kong Life but not the Appointed Licensed Insurance Agency. In respect of an eligible dispute (as defined in the Terms of Reference for the Financial Dispute Resolution Centre in relation to the Financial Dispute Resolution Scheme) arising between the Appointed Licensed Insurance Agency and the customer out of the selling process or processing of the related transaction, Appointed Licensed Insurance Agency is required to enter into a Financial Dispute Resolution Scheme process with the customer; however any dispute over the contractual terms of the life insurance product should be resolved between Hong Kong Life and the customer directly.

### Dividend Policy

Hong Kong Life offers a comprehensive range of life insurance products which provide both guaranteed and non-guaranteed benefits to the Policyowners depending on the specific features of different products.

The guaranteed benefits generally include the insurance coverage payable on death, maturity or disablement as well as guaranteed cash value for loan or Policy cancellation. The non-guaranteed benefit for this Plan are the dividends (including Monthly Income, Special Dividend and Terminal Dividend (if applicable) and rate of interest (refer to as "interest accumulation rate") on Monthly Income, Special Dividend and other cash payments (if applicable) left on deposit under a Policy. The rate of interest may vary at the discretion of Hong Kong Life. Past dividends record is not indicative of future performance.

The amount available for distribution as dividends to relevant classes of Policyowner is determined by the Appointed Actuary of Hong Kong Life in accordance with Hong Kong Life's internal dividend management. The amount depends on both the emerging experience and the future best estimate assumption including investment returns, actual experience on claims (such as death and/or other covered benefits) and surrenders as well as the projected cost of providing such benefits, policy persistency rates, operation expenses, tax and the effect of smoothing. The Appointed Actuary will also report to the Board of Hong Kong Life on the Policy covering allocation of profits between shareholders and participating fund for approval, taking into account the principle of fair treatment of customers, and the equity between shareholders and Policyowners.

Dividends will be determined and distributed according to the Policy's dividend provision and in compliance with the relevant legislative and regulatory requirements as well as relevant actuarial standards, whereas Terminal Dividend is available for certain types of Policies and payable upon termination or partial surrender of the Policies.

As stated, the amount of dividends will vary according to the emerging experience of the above factors and types of the products. Hong Kong Life applies a smoothing approach in relation to the distribution of the dividends. It will only be modified if the actual experience is significantly different from expected or if the future expectation is changed.

Policyowners may also choose to leave their Monthly Income, Special Dividend or other cash payments (if applicable) with Hong Kong Life to earn interest at a rate determined by Hong Kong Life based on its investment performance and market conditions. As a consequence, the interest accumulation rates are not guaranteed and may be adjusted from time to time.

\* Investment returns include investment income and changes in asset value of the underlying investment. Performance of the investment return is affected by interest earnings and other market risk factors including, but not limited to, interest rate or credit spread movements, credit events, price fluctuations in invested assets, and foreign exchange fluctuations.

## Investment Policy
